

SFCNS Imaging Course 2019

1st Module: Imaging Neurodegeneration

Saturday, October 26, 2019

Hotel Mövenpick, Lausanne

- Basic, advanced and multimodal imaging in neurodegeneration
- Case based, interactive and keynote lectures
- Pioneer session
- Complementary topic: multiple sclerosis

sfcns2019.congress-imk.ch

Dear colleagues

We hereby invite you to the newly created SFCNS Imaging Course of the Swiss Federation of Clinical-Neuro-Societies. It is devised by Prof. Christoph Stippich, MD, vice-president of the Swiss Society of Neuroradiology.

The SFCNS Imaging Course will be a multidisciplinary course that teaches how to read MRI. It is aimed for all physicians who are working in one of the clinical neuro-disciplines.

The entire course will have six modules with these topics:

- Neurodegeneration
- Neuro-oncology
- Neurovascular
- Neuroimmunology / infectious diseases
- Special topics: movement disorders, epilepsy, pediatric neurology, neuro-ophthalmology
- Clinical topics: headache, emergency, trauma

The first module with the topic 'Neurodegeneration' is scheduled right after our **SFCNS Congress 2019** on **Saturday, October 26, 2019 in the Hotel Mövenpick in Lausanne**. We were able to engage excellent speakers and prepared an attractive and daily practical program.

We are looking forward to welcoming you in Lausanne on October 26, 2019!

Kind regards

Prof. Christoph Stippich, MD
Vice-President SSNR

Prof. Karl Schaller, MD
President SFCNS

08:00-08:45

Registration

08:45-09:00

Introduction

09:00-09:45

Neuroimaging 1 (basics)

09:45-10:30

Case based lecture 1

10:30-11:00

Coffee break

11:00-11:45

Neuroimaging 2 (advanced)

11:45-12:30

Case based lecture 2

12:30-13:30

Lunch break

13:30-14:15

Complementary lecture MS

14:15-15:00

Case based lecture MS

15:00-15:30

Coffee break

15:30-16:15

Keynote lecture

16:15-17:00

Pioneer session

17:00

Discussion & closing remarks
